

# DigiLink DLM205 - Gig-E Aggregator and Optical Transceiver with On-Board Chassis Management

**The DLM205 combines a 9 port non-blocking Ethernet switch and aggregator with DL4000 chassis management capabilities.**

The innovative design of the DLM205 enables users to manage and monitor DL4000 chassis as well as aggregate 9 channels, 5 external and 4 internal, of 10/100/1000 Ethernet traffic for transport across electrical or optical networks, all in a low cost, single slot DigiLink module. The module is fully non-blocking with a total capacity of 18 Gigabits of traffic plus chassis management and each port independently supports 10/100/1000 Ethernet. The four internal ports can be linked to other modules in a DigiLink chassis to provide internal Ethernet connectivity, eliminating the need of external cabling.

Unlike more complicated designs that require dedicated trunking modules and switching matrixes, the DLM205 is a simple Gig-E aggregator compatible with all DigiLink chassis. When used in a DL4000 chassis an additional channel is enabled that includes capabilities to manage, monitor, and configure a chassis via DigiLink Manager HTTP browser based EMS or SNMP. The DLM205 provides a simple, reliable, and low cost solution for transporting video centric traffic and chassis management across Ethernet networks.

## FUNCTIONS

**Monitor and manage DL4000 chassis**

**Aggregate up to nine 10/100/1000 Ethernet links**

**Non-blocking 18 Gigabit of switching capacity**

**Provides optical or electrical transport of**

- 10Base-T
- 100Base-TX
- 1000Base-T
- Ethernet standard

## FEATURES

**In-band management of DL4000 chassis**

**Supports all types of Ethernet traffic**

- 10/100/1000 auto negotiate
- Auto MDI/MDIX
- Auto full-duplex and half-duplex
- VLAN capabilities

**Externally accessible SFP transceiver optics**

- Optical budget to 33dB
- WDM (1310nm, 1550nm)
- CWDM ITU G.694.2 (Channels 27-61)
- DWDM ITU G.694.1 (Channels 21-60)

**Front and rear panel status LEDs**

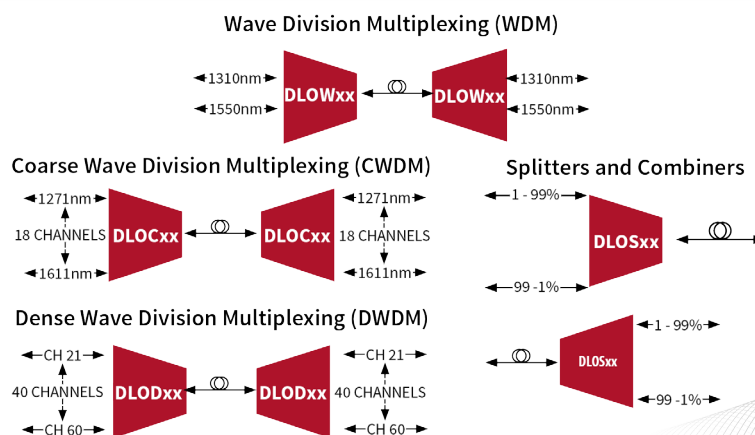

- Major/minor alarms
- Link status
- Activity

**Statistics per RFC 2819 Standard**

**Simple and rugged design**

- Plug and play design requires no pre-deployment configuration
- Monitor, manage, and review statistics using DigiLink Manager or SNMPv2
- NEBS Level 3 Certified ensures reliable operation in harsh environments

### OPTICAL MULTIPLEXERS, SPLITTER, COMBINERS, AND SWITCHES

## SPECIFICATIONS

### Environmental

Operating temperature	0 to 50°C
Ambient storage temperature	-40 to 80°C
Relative humidity	10 to 95% (non-condensing)
Power dissipation	< 8 Watts

### Physical

Dimensions	0.8" x 5" x 10.8" (1 slot in chassis)
Weight	<2 pounds, (1kg)

### Interface

External electrical	Rear (3) RJ-45
External SFP	2 (Optical or RJ-45)
Internal	4 to other modules in DigiLink Chassis DL4000 Chassis Management
Data rates	10/100/1000 Ethernet

### Regulatory Conformance

Compliance:	Certified NEBS Level 3, CSA 60950, EN60950, EN55022 FCC Part 15 (Class A), CISPR 22
